IC Equipment:
- EPP-1F E(E)Prom Programmer
- EPP-2 E(E)Prom Programmer
- EPP-3 Memory Programmer
- EPP-4 Memory Programmer
- MCP-x51 80c51 Programmer
- UP-1 Universal Programmer
- LP-10 Universal Programmer
- LA-16 Logic Analyzer
- LA-32 Logic Analyzer
- MICE-4 Memory In Circuit Emulator
- UV-1 Eraser
- DT-1 Digital IC Tester
- LT-1 Linear IC Tester

Product Categories:
- IC Programmers, Erasers and Testers
- PC Based Logic Analyzers
- USB Products

EPP-1F E(E)Prom Programmer

Note: the EPP-1F E(E)Prom programmer will become obsolete as of january 2003.

The ART EPP-1F E(E)Prom programmer can program a wide variety of EPROM's, EEPROM's PROM's and even more.

The ART EPP-1F integrates powerful hardware and two menu driven software packages to perform high quality operation:

- PromProg for DOS
- PromProg for Windows (only 3.1x, 95, 98 and Me)

The ART EPP-1F is able to program E(E)Proms's up to 512 kbit and is suitable for hobby and small development environments.
